

Whether for small residential systems or a large PV farm, centralized management and system monitoring saves time and money.

Through the Sunny Portal, plant operators and installers have access to key data at any time.

Pre-configured standard pages can be easily customized or supplemented.

Whether as a data table or as a diagram: SMA solutions allow

almost infinite options for analyzing measured data or visualizing yields.

The yields of all inverters in a plant are compared automatically, allowing for the detection of even the smallest deviations.

The powerful reporting functions also provide regular updates via e-mail to help ensure yields.
